Case Study, Deaphalis and Thelma Sample, Success Tax Relief, LaPorte Texas

"We went to our bank to get a business line of credit and they **turned us down**. We got started with Credit Suite setup our business credit credibly and built our business credit. After following the steps we've now secured over **\$96,000** in business credit cards and just applied for the platinum American Express and got approved instantly with no limit. Now we have 4-5 different companies call us every day trying to give us money, and that's a really good problem to have! We're excited, and if you don't have business credit yet you should get involved with Credit Suite to have the same results we have."

Business Merchant Account

- Opening a business merchant account is a smart way to help your business
- Now your business will be able to **accept credit and debit cards**
- Studies show that customers will spend more if they can pay by card
- This also increases your finance options
- It's generally more secure, too
